F-2014-00196 - The number of donors whose eggs have resulted in five or more births

04 August 2014

Summary of request

The Authority was asked how many egg donors' donations have resulted in five or more babies being born, as well as additional information about each donor.

HFEA response

The requested information can be found in the table below.

- Table showing data about egg donors and resultant births (xls 28KB)

Please note that this information contains frozen cycles and that the 'babies born' section is a total count and thus is likely to include siblings.
